## ABOUT ME

With over 5 years of experience in Information Technologies, I am a hardworking individual who strives to achieve the best in all areas. Friendly, self-organized, and genuinely in love with my industry. Now that I have acquired more skills, I intend on working within a company where I can develop and utilize my skill set while achieving my personal goals of becoming a competent, respected, and successful professional. Fast learner, self-motivated, applying methods and technical updates in my day-to-day work with a high degree of attention and commitment to work.

## WORK EXPERIENCE

### Node.js Developer

**Due-x LLC** [ 2018 – 2020 ]

**City:** Yerevan

**Country:** Armenia

Wrote a server-side application of an all-automated business monitoring system for one of the RA's leading gas suppliers. Set up cloud-based databases for keeping data and easy access to the station's activity history. Set up a user authentication system with session ids. Sent real-time statistics via socket.io

#### Technologies

- Node.js
- Express.js
- Socket.io
- MongoDB
- Mongoose.js

### DevOps engineer

**Stone Valley** [ 2022 – Current ]

**City:** Yerevan

**Country:** Armenia

Created a cluster in AWS via terraform with the usage of various modules and resources. Migrated Jenkins infrastructure from a standalone AWS EC2 instance to an ECS cluster with zero downtime and set up a master-agent relationship in the cluster. Migrated pipelines from TravisCI to Jenkins.

#### Technologies

AWS

- ECS
- EC2
- VPC
- ELB
- Lambda
- EFS
- S3
- ECR

- Route 53
- CloudFront
- IAM

Terraform

Jenkins

GitLab
